

SolidCure is active in the energy market and is a company specialized in the manufacturing and distribution of medium voltage parts. These parts are used in electricity networks and railway installations. The evolution towards green energy poses many challenges for our company.

Solidcure is looking for an all-round technician for immediate employment.

Job description

- Variety is an asset in this job.
- You are the right hand of the operations manager.
- You are a born technician, who is experienced in many areas and is willing to roll up your sleeves and learn every day.
- You help with the installation and maintenance of the production machines and the general layout of the factory.
- You learn how to use our CNC machines and manufacture specific parts.
- You repair customer devices.
- You assist in processing customer orders.

Your experience:

- You have completed a technical or bachelor's degree in electromechanics or can present relevant experience.
- You have experience in the maintenance of electrical and mechanical installations.
- You can work independently and feel at home in a small company.
- You can monitor and improve procedures.
- You work accurately.

We offer :

- Day work: 38h / week
- A permanent contract after an interim period
- Flexible work
